A large number of the busy people of Washington took a day off yesterday. They rode on the fiver, had a glorious dinner, played baseball, exchanged stories, frolicked on the grass, and forgot about work in the characteristic American fashion.

The occasion was the minth annual excursion and shad dinner of the Washington Board of Trade at River View, About 200 men left the city on the steamer Samuel J. Pents, the majority About 200 men left the city on the steamer Sammel J. Pents, the majority leaving at 16:36 a.m., and all returning at 8 b. m.

It was a memorable occasion, and all memories are pleasant. The affair was agreed to have been the most notable in the history of the Board of Trade, and another like it will be looked forward to with keen interest.

Planked Shad Dinner.

Of all the features of the day the attack on the shad was the most enjoyable, and the superiority of planked shad over anything else at any place or time was unautmously conceded. The fish were cooked outdoors and were taken from plank to table. All doubts about the kingship of the shad took rank with tresson right then. But the king dish came not alone, and there was a long array of the other best things. The viands were finely prepared and the feast was one of real excellence. Major A. H. Neumeyer was at the head of the dinner committee, and he and his assistants had everything going in good time and in freeproach, able style. The other members were Messrs. Thomas P. Morgan, W. H.
